SUMMARY

Design Engineer with strong expertise in visual communication and digital product development. I craft functional, minimalist user interfaces and bring them to life using AI-assisted coding and agentic workflows. By integrating AI tools into the design and development pipeline, I consistently optimize task completion time and streamline complex workflows. Experienced in leading an AI coding community of over 900 members and delivering high-quality, scalable design solutions for diverse organizational needs.

EXPERIENCE

Ambassador

03/2026 - Present

Cursor ↗

- Official Cursor Ambassador advocating AI-assisted development for developers and designers in Indonesia
- Organized offline events (Cursor meetups & vibe coding workshops) with 60+ attendees
- Produced vibe coding educational content (YouTube @faizintifada) covering Cursor workflows, agentic coding, and production best practices
- Bridged product design and UI engineering prototyping to deployed code via Cursor in real client/product work
- Provided product feedback and real-world use cases to Cursor based on hands-on builds across modern stacks (Next.js, Convex, Supabase, etc.)

Chief Technology Officer

09/2025 - Present

Isometricon.com ↗

- Built and launched Isometricon.com, a production-grade AI 3D icon generator platform
- Developed full-stack Next.js application integrated with Supabase, Clerk, Cloudflare R2, Polar, Mayar, Fal.ai, Gemini, Replicate, OpenRouter, ZeptoMail, Sentry, and BytePlus
- Designed and implemented scalable AI image generation + 3D processing pipeline with cost-efficient architecture
- Built monetization system (subscription + one-time payments) and user management using Clerk + Polar
- Ensured production reliability and performance with Sentry monitoring and multi-provider fallback strategy
- Owned end-to-end development: product ideation, UI/UX, backend, deployment, and ongoing operations

Founder

09/2025 - Present

VibeDev ID Community ↗

- Built and led an AI developer community of 800–900+ active members, maintaining 35–45% daily engagement through discussions, content sharing, and interactive sessions.
- Produced ongoing educational content on AI Coding, increasing community reach by an estimated 120% within 3 months.
- Created and distributed AI-focused content across Threads and YouTube to enhance awareness and member onboarding.
- Managed community operations, moderations, and knowledge-sharing initiatives.

Community Manager

09/2025 - Present

AI For Productivity ↗

- Managed WhatsApp and Telegram communities with highly active user bases, driving consistent engagement through discussions and social media updates.
- Oversaw digital product operations including affiliate program set-up, product listings, and platform management.
- Delivered timely AI News & Updates content, improving click-through and retention rates by an estimated 18–25%.
- Collaborated with internal teams to align content themes with broader marketing initiatives.

Visual Communication Design (DKV)

LUMBUNG TOUR HARAMAIN ↗

- Oversaw all corporate and customer design needs, ensuring consistent brand identity across digital and print assets.
- Led digitalization initiatives for asset management, congregation data, website content, and social media operations enhancing internal efficiency by 30–40%.
- Produced full-cycle documentation including event coverage, video assets, and media materials.

08/2024 - Present

Motion Designer & Videographer

Spread Studios ↗

- Produced high-quality reels, motion graphics, and design assets, delivering 20-40+ content pieces per month for clients in diverse industries.
- Supported event operations, ensuring on-time and high-quality content delivery.
- Collaborated closely with creative and production teams to meet client objectives.

12/2023 - Present

Personal Assistant to CEO

LUMBUNG GROUP ↗

- Optimized CEO workflows through AI-assisted automation, achieving 25–35% faster turnaround on administrative and creative tasks.
- Delivered comprehensive design support for all subsidiaries and personal branding initiatives.
- Coordinated multi-task operations that typically require multiple personnel.

12/2023 - Present

Switcher & Camera Operator

AMAVIS ↗

- Managed live switching across multi-camera setups, ensuring smooth transitions and broadcast-quality output.
- Coordinated with directors, camera operators, and audio teams to execute event cues accurately.
- Responsible for on-screen graphics and lower thirds during live events.

01/2023 - Present

EDUCATION

Public Relations, Advertising, and Applied Communication ↗

Universitas Islam Negeri Bandung - Bachelor's Degree

- Chief of Student Association (PERS Division).
- Founder of CINEMART, a campus-based film community.

2019 - 2023

CERTIFICATES

Mentor Certificate

Kerjapake AI

Role as a Mentor in the "Introduction to Vibe Coding Class" during the Kerjapake AI Online Class 2025 Program

11/2025 - Present

Certified Prompt Optimization Specialist (CPOS) ↗

AI For Productivity

07/2025 - Present
